SCOPE OF COVERAGE

The Scope of engagement will cover mostly Lagos and Abuja, but other cities will make up the total number of Hospitals to activate.

Additional Cities

- Abeokuta
- Kano
- Warri
- Asaba

Classification of Hospitals

Private Hospitals

- Primary: These are small hospitals with a capacity of 1 doctor and 3 nurses catering to 10-20 patients daily.
- Secondary: These are the hospitals with a capacity of 2-10 doctors and 5 nurses or more catering to 50-100 patients daily
- Tertiary: These are the big hospitals with a massive pool of doctors nurses and consultants

FEATURES

- Privately owned
- Usually, part of a Global Group
- Can be Profit or Non- Profit
- Linear approach to decision making
- Funded by Patients and/or insurers/embassies
- Usually, part of an EMR platform

Public Hospitals

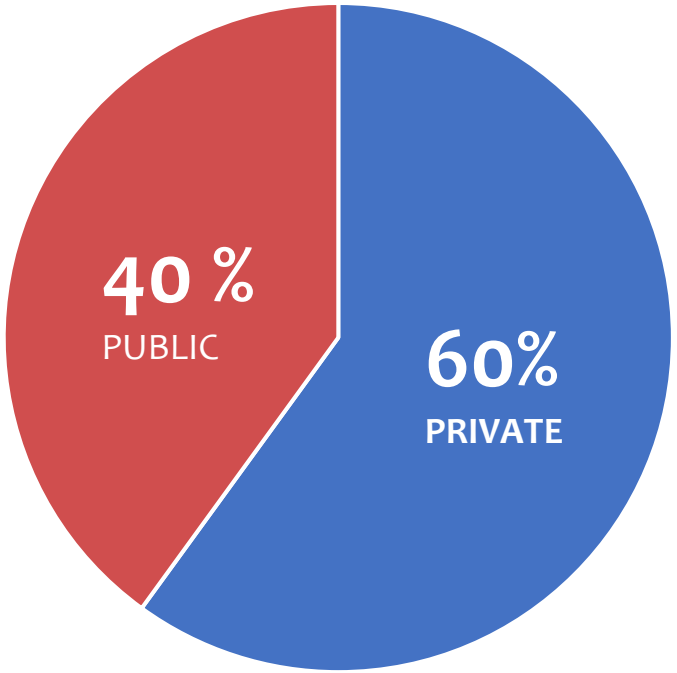

This includes Primary health care centers, General hospitals and teaching hospitals.

FEATURES

- Government Owned
- Government Funded
- Bureaucratic approach to decision making
- Little Knowledge of the EMR platform

Our approach to the activation would be to primarily signup the public HCPs introducing them to EMR emphasizing its benefits and then push our canvassers to approach HCPs signed up with other organizations and get them to sign up to Helium Health

Hospital Intervention Reach

Rationale

With a minimum sign-on fee of **N500,000,** the type of hospitals to activate is skewed toward the private HCPs.

Our activations will then focus on Tier 2 Private hospitals and above and big/state-owned public hospitals as they are the ones that would either have the financial capacity and/or understanding of what benefits to derive from signing up for our EMR program

PROPOSED MAPPING OF HOSPITALS

Location	Recommended No of Hospitals	% Split	No of Personnel Required	Recommended Duration
Abuja	500	25%	2 Canvassers	60 Days
Lagos	1200	60%	4 Canvassers	60 Days
Kano	260	13%	2 Canvassers	40 Days
Abeokuta	15	0.75%	1 Canvasser	30Days
Warri	15	0.75%	1 Canvasser	30 Days
Asaba	10	0.75%	1 Canvasser	30 Days

Assumptions:

- Working hours are estimated at 480 min daily
- One hour break in between brings it to 420 mins
- Recommended duration /hospital coverage- 1 hr30mins(90mins)
- Estimated number of hospitals to be canvassed daily – 5 hospitals based on prior appointment confirmation.
- The number of Canvassers has been determined based on the number of days to be spent per location with extra consideration based on unforeseen circumstances.

IMPLEMENTATION STRATEGY

Recruitment of qualified candidates for the job role and selection is a vital and critical process of identifying and selecting the right candidates/team for the task. Hence, there is a need for developing a strong recruitment and selection process.

ZQ's wealth of experience in managing human resources across marketing projects would ensure maximum achievement of the set activation goals.

ZQ will recruit, shortlist, train, and manage the right candidates from her vast database in the mentioned states

We will ensure that the right personnel based on the criteria below will be employed so the right messaging and information about the brand is adequately disseminated

IDEAZQUTION
CONSULTING
We Take Care Of All Your Integrated Marketing Needs

CRITERIA FOR SELECTION

We will primarily focus on Health Record Officers and Nurses in our selection of canvassers for this activation.

Health record officers and Nurses have the educational and professional understanding of what effective data acquisition, analysis, and transfer can do for a company or industry as this encompasses their daily work activities.

A total of 20 recruited canvassers would receive the intensive Train the Trainer program on the EMR platform

RECRUITMENT CRITERIA FOR SUPERVISOR & MEDICAL CANVASSERS

	Criteria For Requirement	Requirement	Qualities
Supervisors	Age 27-35yrs	Least level of education would be B.Sc or HND	Attention to detail, High integrity Organizational skills.

TRAINING

- ZQ will recruit and manage the team.
- Personnel recruited must have guarantors to ensure maximum control.
- The first training of the medical canvassers would be carried out in Lagos with physical training carried out in other locations like Abuja and Kano
  - ZQ however suggests virtual training for canvassers in the other cities because of the number of personnel in those cities.
- Extensive training would be carried out to facilitate project deliverables.
